Feedback On Curriculum

M.Sc. (Microbiology)

Feedback Analysis

M.Sc. (Microbiology)

To improvise the curriculum offered to the students, regular feedback procedure is conducted. The feedback from different stakeholders: students, faculty members, employers, parents and alumnae provide important inputs for the curriculum- enrichment. Feedback on teaching learning process, curriculum aspect, curriculum design and development, campus facility and other related parameters are taken into consideration.

Feedback Analysis (students)

Table 1: Feedback Analysis (%)

| S.No.	Give your feedback on the following	Excellent	Very Good	Good	Average	Poor
1	Extent of syllabi covered in the class	18	39	38	5	0
2	Student Teacher Interaction	22	57	16	4	1
3	Teaching Methodology adopted by the teachers	17	49	23	8	3
4	Career Guidance and Assistance by Teachers	23	41	21	10	5
5	Integration of theory and Practical (if applicable)	16	39	28	13	4
6	Overall learning environment	19	46	25	7	3
7	Syllabus offered by the courses.	15	40	29	12	4
8	The design of the courses in terms of extra learning or self-learning.	10	29	42	13	6
9	Courses offering LAB components.	16	30	47	5	2
10	Depth of the syllabus of the courses in relation to the competencies expected by industry/current global scenarios.	18	52	17	12	1
11	Sequence of the courses provided in the curriculum.	24	49	19	8	0
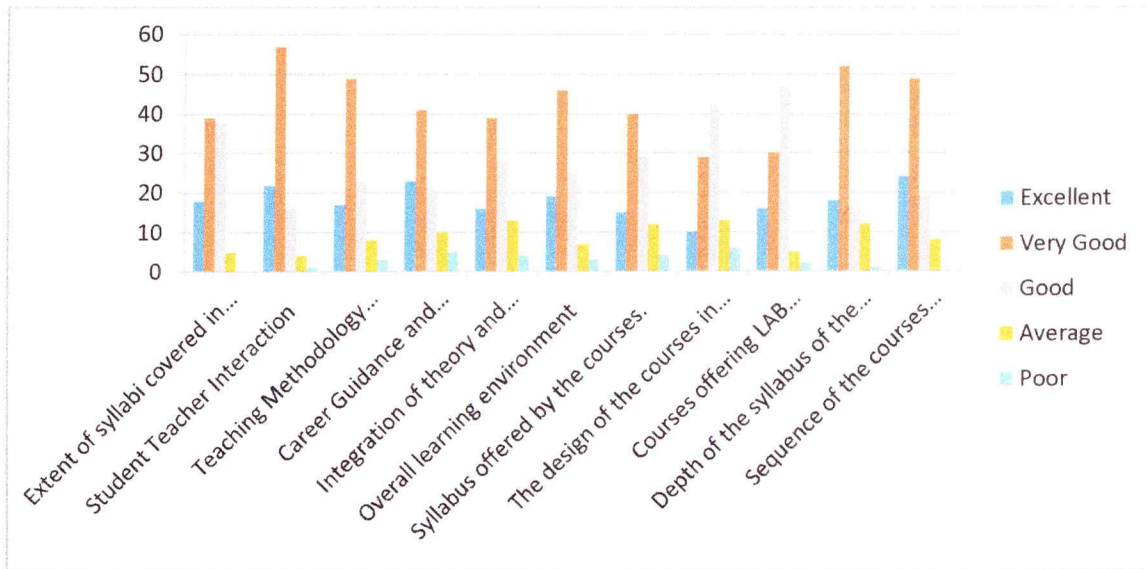

Figure1: Student feedback histogram

Feedback Analysis (Faculty)

Feedback from faculty members were collected for their views towards the curriculum design & development. Categorization of the ratings are as follows: Strongly agree (5), Agree (4), Neutral (3), Disagree (2), Strongly disagree (1).

Table 1: Faculty Feedback Analysis (in %)

|	Strongly agree	Agree	Neutral	Disagree	Strongly disagree
Board of studies ensures that the latest and relevant programmes are being offered	48	27	25	0	0
Employability is given weightage in curriculum design and development	55	38	5	2	0
Teachers are given enough freedom to contribute their ideas on curriculum design and development	55	36	7	2	0
System followed by the University for the design and development of curriculum is effective	52	33	14	1	0
Curriculum is updated from time to time	43	31	18	8	0
Representation from business and industry in Boards of studies is helpful in designing and improving the course business and industry	24	32	39	5	0

Figure 2: Faculty feedback related histogram

Employers feedback Analysis

Questions	Strongly Agree	Agree	Moderately Agree	Disagree	Strongly Disagree
The University is progressing towards building the academia-industry gap by inculcating advanced techniques in teaching learning process as per the requirement of industry.	8	47	35	10	0
The University has provided very good infrastructure support and a logistic arrangement for holding the placement derives.	25	47	28	0	0
The University has sufficiently imparted the soft skills, analytical reasoning etc. inside its students.	18	55	27	0	0
The curriculum, teaching learning and evaluation process of SIET is matching with the recent industrial requirement.	18	44	38	0	0
The courses offered to provide a solution to issues relevant to Gender, Environment, and Sustainability.	24	30	39	7	0
The current syllabus is job-oriented, skill-based and value-oriented.	30	45	25	0	0
The curriculum is relevant for employability and job placements.	30	36	33	1	0
The curriculum is relevant for the solutions of global and national problems.	20	57	23	0	0
Effectiveness of curriculum for the development of entrepreneurship.	27	47	26	0	0
The Internship helps in placements.	67	32	1	0	0

Curriculum Revision

Program Name: M.Sc. (Microbiology)

Date: 13-August'18

- BoS Meeting conducted on August 10, 2018 in Department of Biotechnology, for the curriculum revision as per the feedbacks from the stakeholders and the suggestions of the experts.

- After the discussion content revision was done and courses were approved in the meeting.

MBMS-101	Principles of Microbiology
MBMS-102	Biochemistry
MBMS-103	Fundamentals of Bioinformatics
MBMS-104	Enzymology
MBMS-201	Food & Dairy Technology
MBMS-202	Immunotechnology
MBMS-203	Bacteriology & Virology
BMMS-201	Molecular Oncology

- It was suggested for more focus on the practical sessions.

- Conduct value added sessions for the students to enhance their skills

- The faculty members have conducted various online short term and micro certification courses.

Any Suggestions:

The industry-acdemia relationship can be strengthened by universities and industries collaborating on mutually agreed projects.

This way, the industry can ask the university to work on say, a production or HR or process problem with a team of professors and students who can then use their academic knowledge to solve an industrial problem. Such projects should be time bound and the feedback obtained from the industry should be further used to offer better solutions. Subsequently, such solutions can be shared with other industries having similar problems.

The same process should be applied to national and global level problems. For example, B Tech students should be encouraged to find cost effective solutions for detection of COVID symptoms and supply of oxygen to needy patients in collaboration with the industry. Subsequently, good and effective solutions can be commercialized and offered at cheaper and affordable prices to the masses.

(Lt Col Manish Sharma)
